

PRODUCT-DETAILS

# PSE210-600-70-1 PSE210-600-70-1 Softstarter - 210 A - 208 ... 600 V AC

## General Information

General Information	
Global Commercial Alias	PSE210-600-70-1
Extended Product Type	PSE210-600-70-1
Product ID	1SFA897112R7001
ABB Type Designation	PSE210-600-70-1
EAN	7320500515020
Catalog Description	PSE210-600-70-1 Softstarter - 210 A - 208 600 V AC
Long Description	The softstarter PSE210-600-70-1 has a rated maximum operational current of 210 A with an operating voltage span from 208600 V AC. The rated control voltage is between 100250 V AC at 50/60 Hz. PSE features a two-phase control with a soft start and stop through a voltage or a torque ramp. It has built-in bypass for easy installation and energy saving. A RUN, TOR, and Event signal is available from a relay output in NO (normally open state). The PSE has functions such as current limit, kickstart, analog output, EOL, underload, and locked rotor protection. To interact with PSE, it has an Illuminated display that uses symbols to become language neutral. As an option, you can add an identical external keypad with a rating of IP66. There are three ways to communicate with PSE. It can be done by hardwire inputs Start/Stop or by Reset of fault. Another popular option is the built-in fieldbus plug. PSE is a true general pur-pose softstarter. It's a perfect balance be-tween high starting capacity and cost effic-iency. Very suitable for small to medium-sized three-phase motors with nominal currents from 18370 A. Typical applications are, for example, pumps, fans, compressors, and conveyors.
